

Job Title: Production Operative

Reports to: Operations Manager.

Company Overview:

The Company was founded in 1982. We are specialist designers and manufacturers of energy saving motor control equipment. Based at Lee Mill, near Plymouth, we serve industrial and commercial markets worldwide, with 85% of our annual sales being exported.

We are part of a much larger worldwide group with premises in USA, St Kitts, South Korea and China.

Today, with a successful track record recognised around the world, we are known internationally as the pioneers of digital soft starters and are still innovating and diversifying our product ranges today.

Job Overview:

The role has the responsibility of assembling and inspecting all Motortronics products in a safe and efficient manner to the latest specification.

Responsibilities and Duties:

- Ensure that all products are built and inspected in line with the Quality system.
- Ensure that all production test equipment is properly maintained and used safely.
- Work with Operations to ensure Customer delivery dates are achieved.
- Make and suggest improvements to procedures, techniques and design
- Keep a clean and safe working environment and optimise space utilisation
- Be aware of the company's health and safety system and ensure that all risk assessments and safe systems of work are followed.
- Communicate effectively with co-workers and management.

Experience and Requirements:

- Proven previous experience within electronic assembly desirable.
- Basic workshop skills essential.
- Ability to problem solve.
- Keen eye for detail.
- Team player.
